

Hvordan udskriver jeg fra egen computer.

Åbn din webbrowser og skriv i adressefeltet
http://print.itcsyd.dk
og tryk enter.

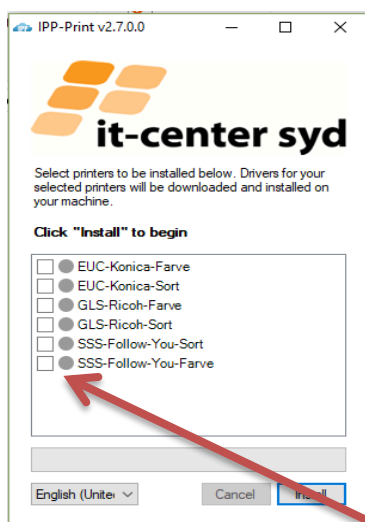

The image displays two columns of screenshots from the print.itcsyd.dk website. The top row shows the login page, which includes a language dropdown menu set to "English", the "it-center syd" logo, the text "Please login", a "Username:" label, an input field, and a green "Login" button. The bottom row shows the download options. The left screenshot is titled "Print from Windows!" and contains a green box with text: "If you install the IPP-Printer for Windows you will be able to print easily from any program that supports printing." Below this is a green button labeled "Download IPP-Printer for Windows" and a dropdown menu currently showing "Windows". The right screenshot is titled "Print from Mac!" and contains a green box with text: "If you install the IPP-Printer for Mac you will be able to print easily from any program that supports printing." Below this is a green button labeled "Download IPP-Printer for Mac" and a dropdown menu currently showing "Mac". Two red arrows originate from the bottom of the "Download IPP-Printer for Windows" and "Download IPP-Printer for Mac" buttons and point towards the text below.

Tryk på
" **Download IPP-Print for Windows eller MAC** "

Skriv dit Unilogin navn i Username feltet og tryk på "Login".

Du kan evt. vælge et andet sprog i feltet i venstre hjørne.

Marker den eller de printere med flueben som du skal bruge.
Tryk derefter på Installer.

De valgte printere er nu installeret på din pc og kan findes for Windows under "Enheder og Printere" og for MAC under "Printere og Scannere".
Afslut ved at trykke på "Ja".
