The screenshot shows the Office 365 installation and settings window. The 'Software' section is highlighted with an arrow pointing to the 'Installer Office' button. The 'Indstillinger for Office 365' menu is open, showing options like 'Indstillinger for Mail', 'Opdater', 'Autosvar', 'Visningsindstillinger', 'Administrer tilføjelsesprogrammer', 'Offlineindstillinger', 'Skift tema', 'Indstillinger', and 'Feedback'. The 'Office' section shows the list of apps to be installed: Word, Excel, PowerPoint, OneNote, Access, Publisher, Outlook, Skype for Business, InfoPath, and OneDrive for Business. The language is set to 'dansk (Danmark)' and the version is '32-bit (anbefales) Avanceret'. There is a note about installing multiple languages and a link to 'Gennemse systemkrav'.
